**NAKED**

To everyone within the Naked.cafe family.

Collectively we have just surpassed \$150,000.00 in contributions to Macodep.org/Makina Clinic. This with the completion of the roof replacement/Starlink and solar installation at the Makina clinic in Kibera/Nairobi Kenya Africa.

This since our first visit in 2022 and not including the equipment and medical supplies we have provided to enhance education and health services within these small communities in both Kibera and Ugunja at Got Osimbo.

As with every contribution made through our almost 30 yrs of community work, nary a mention of tax benefit.

I am so proud to be a part of the Naked.cafe family and so humbled to have been provided the opportunity to be a part of Makina Community Clinic/Macodep.org.

To everyone here and anyone interested in joining in supporting these small community managed projects,

100% of everything contributed goes to community programming.

This as determined by local community members in both Kibera/Nairobi and Got Osimbo at Ugunja Kenya Africa.

Naked.cafe family, I am humbled each day to be a part of your lives.

Asante Sana/Thank you

Bob
