NAKED

To everyone within the Naked.Cafe family.

Collectively we have surpassed \$100,000.00 in contributions to Macondep.org/Makina Clinic. This with the completion of the roof replacement and Starlink at the Makina clinic in Kibera/Nairobi Kenya Africa.

This since our first visit in 2022 and not including the equipment and medical supplies we have provided to enhance education and health services within these small communities in both Kibera and Ugunja at Got Osimbo .

Much of this would not have happened were it not for our IT/Media team contributing 100's of hours pro bono & tirelessly to ensure continuity of service both locally and abroad.

As with every contribution made through Naked.Cafe 's almost 30 yrs of community work, not a mention of a tax receipt.

I am so proud to be a part of the Naked.Cafe family and so humbled to have been provided the opportunity to be a part of Macondep.org.

To everyone here and anyone interested in joining in supporting these small community managed projects.

100% of everything contributed goes to **Makina Community medical clinic**, childrens care and community programming. This including education and the **Women's Empowerment Microloan Programs** since 1999.

All programming is Directed and Managed by local community members in both **Kibera/Nairobi** and **Got Osimbo** at Ugunja Kenya Africa.

Naked.Cafe family, I am humbled each day to be a part of your lives.

Asante Sana/Thank you

Bob
